

## Step One: Create Your Project Folder

- Open your terminal and use the command line to create a new directory called "DA\_prereq\_Shaheena".
- Inside that folder, create two more directories called "Data" and "Notebooks".
- Use `mkdir` to create the folders, and `ls` to confirm the folder creation.
- Navigate to the Notebooks folder using `cd` and use the `touch` command to create a file called `prereq_notebook.ipynb`.

(Take a screenshot of the code in your terminal, save it to the Data folder.)

```
MINGW64:/c:/Users/Code Lou/Documents
Code Lou@CODEL-027024 MINGW64 ~/Documents
$ mkdir DA_prereq_Shaheena
Code Lou@CODEL-027024 MINGW64 ~/Documents
$
```

## Step Two: Initialize Git and Make Your First Commit

## Step One: Create Your Project Folder

- Open your terminal and use the command line to create a new directory called "DA\_prereq\_Shaheena".
- Inside that folder, create two more directories called "Data" and "Notebooks".
- Use `mkdir` to create the folders, and `ls` to confirm the folder creation.
- Navigate to the Notebooks folder using `cd` and use the `touch` command to create a file called `prereq_notebook.ipynb`.

(Take a screenshot of the code in your terminal, save it to the Data folder.)

```
MINGW64:/c:/Users/Code Lou/Documents/DA_prereq_Shaheena
Code Lou@CODEL-027024 MINGW64 ~/Documents
$ mkdir DA_prereq_Shaheena
Code Lou@CODEL-027024 MINGW64 ~/Documents
$ cd DA_prereq_Shaheena/
Code Lou@CODEL-027024 MINGW64 ~/Documents/DA_prereq_Shaheena
$ mkdir Data Notebooks
bash: mk: command not found
Code Lou@CODEL-027024 MINGW64 ~/Documents/DA_prereq_Shaheena
$ mkdir Data Notebooks
Code Lou@CODEL-027024 MINGW64 ~/Documents/DA_prereq_Shaheena
$ ls
Data/  Notebooks/
Code Lou@CODEL-027024 MINGW64 ~/Documents/DA_prereq_Shaheena
$
```

MINGW64:/c:/Users/Code Lou/Documents/DA\_prereq\_Shaheena/Notebooks

```
Code Lou@CODEL-027024 MINGW64 ~/Documents
$ mkdir DA_prereq_Shaheena
Code Lou@CODEL-027024 MINGW64 ~/Documents
$ cd DA_prereq_Shaheena/
Code Lou@CODEL-027024 MINGW64 ~/Documents/DA_prereq_Shaheena
$ mkdir Data Notebooks
